FYI

We are moving forward with removing Amar from all the projects above and putting Dale's name in place for now so we can close the ticket for removing Amar.

Curt

Subject: Jira Projects where Amar Singh is lead

SCDCD Management:

You will need to determine either 1) who will be the replacement project lead or component lead for Amar on the Jira projects where he is the listed lead, or 2) whether the projects themselves are obsolete and can be archived. Amar's user accounts cannot be deprovisioned until he is replaced as a lead.

Please see the attachments showing which projects need to be evaluated in this context. Those screenshots ending in 'complead' are where Amar is a component lead. All others are where he is project lead.

Please let me know what changes need to be made in Jira, and I can execute those changes. Feel free to reach out with any questions.

Thank you,

John P. Kenan
